LIFE AND DEATH ON THE ROAD

Road crashes are the leading cause of death among otherwise healthy travellers. This infographic looks at the rates of vehicle ownership and crash deaths (among all people, not just travellers) in the top 10 tourist destination countries.

Icons represent the vehicles owned per 200 population.

Red icons count the drivers and passengers who died in crashes, per 100,000 population.

Motorised 2-wheel and 3-wheel vehicles
